General information

IMPORTANT INFORMATION

Current product range

Starting on page 6, you will find a list of our product supplements, discontinued items and the item index of our current portfolio.

Service team

Our service team will support you competently and in a spirit of partnership. You can reach the team by e-mail at service@alape.com. Your enquiry will be forwarded to the responsible contact person.

Contact details

You can find the contact details on our homepage at www.alape.com/service.

Voluntary manufacturer's guarantee

We grant a voluntary manufacturer's guarantee of 25 years for Alape basins and washbasins made of glazed steel. You can find detailed information about our guarantee conditions at www.alape.com/service.

Care instructions

The guarantee is only valid if the product is used and cared for correctly. Find out more about product care on our homepage www.alape.com/service

Variable installation types for washbasins

Alape offers an extensive range of systematic variety. There are undermount, built-in, semi-recessed and countertop basins and bowls. Find out more about the advantages of each installation variant on page 16.

Fitting instructions

You can find information on the optimum impact area of the water on the basin bowl in the price list in the product descriptions.

Colors

Our washbasins and washstands made of glazed steel are supplied in white as standard. On page 162 – 163 you will find an overview of which series are also available in the current gloss and matt colours for an additional charge.

Technical data

Comprehensive information on our A~form product range can be found on our homepage at <https://www.alape.com/en-GB/products>. Product documents such as tender texts and planning data are available for download. Use this database to carry out planning or project specifications quickly and directly.

BIM data available

The top 50 articles and their variants, which are now available as BIM data, comprise a total of around 140 articles. They range from simple built-in basins to complex washbasin solutions. The range will be successively expanded in the future. The data is available in English (www.bimobject.com/en/alape) and German (www.bimobject.com/de/alape) and is offered in the detail levels (LOD) 100, 200 and 300. They are also available in all common formats such as the international exchange format IFC and can therefore be used by all major software providers, including ArchiCad and AutoCad.

A black and white artistic photograph showing a close-up of a car's front end, specifically the headlight and bumper area. The surface is covered in numerous water droplets of various sizes, creating a textured, reflective effect. The lighting is dramatic, with strong highlights and deep shadows. The text "Glazed Steel" and "the core of what we do" is overlaid in a white serif font in the center of the image.

Glazed Steel
the core of what we do

Material advantages

WHAT CHARACTERIZES OUR PRODUCTS?

Surface Glazed Steel

The glaze firing creates an almost pore-free surface of glass-smooth quality on which neither micro-organisms nor dirt particles can find a foothold. In addition, the surface does not become statically charged and does not attract dust. This makes our surfaces very easy to clean and hygienic.

Easy to clean and hygienic

The surface of the glazed steel is resistant to bacteria and fungi. This makes it hygienic and particularly easy to clean. Thanks to its robust nature, it is also characterised by its exceptional durability.

Impact, scratch and abrasion resistant

The glaze, a wafer-thin skin with a maximum thickness of 300 µm, is immune to external influences. Thin and robust, it defies all everyday household challenges with its mechanical resistance. Scratch marks, abrasion or chipping can therefore hardly occur.

Colourfast and lightfast

The colours of our basins and washstands do not fade, no matter how intense the chosen shade is. This is due to certain pigments in the glaze, which only take on their final colour during the firing process and are then perfectly protected by the glaze from all kinds of influences.

Precise

The tolerance of our basins and washstands is +2 / -0 millimetres. Manufactured from special steel and fired at 830 °C, they always retain their shape and withstand external influences such as temperature differences and mechanical stress. Our products are characterised by their consistent precision: Carefully crafted details, the smallest radii, exact connections and dimensional accuracy are special characteristics of their unique design.

Lightweight

Traditionally, our basins and washstands have wall thicknesses of between 1.5 and 3 millimetres. This makes them much lighter than equivalent products made from other materials.

Heat and cold resistant

Our glazes are fired into the steel at 830 °C and can withstand temperature differences from -60 to +450 °C. Even temperature shocks, i.e. sudden exposure to heat or cold, cannot harm the material.

Resistant to acids and chemicals

Our glazes have the same acid resistance as glass, so that only hydrofluoric acid could permanently damage the surface. The basis for this are glass-forming oxides that bond with the steel as a protective coating during the firing process.

Bespoke – Customised Washplaces

Customised products

In complex room situations, with narrow niches or near doors, washplaces can often only be realised with customised products. By making angled cuts or notching corners, we can adapt Washstands with millimetre precision and thus work with you to respond to such planning challenges.

Hole drillings

We can provide basins and washstands with customised holes according to your specifications. In addition to the diameter, the position of the hole on the washstand or tap ledge can also be varied. Additional holes for lotion dispensers can also be integrated on request.

Functional integration

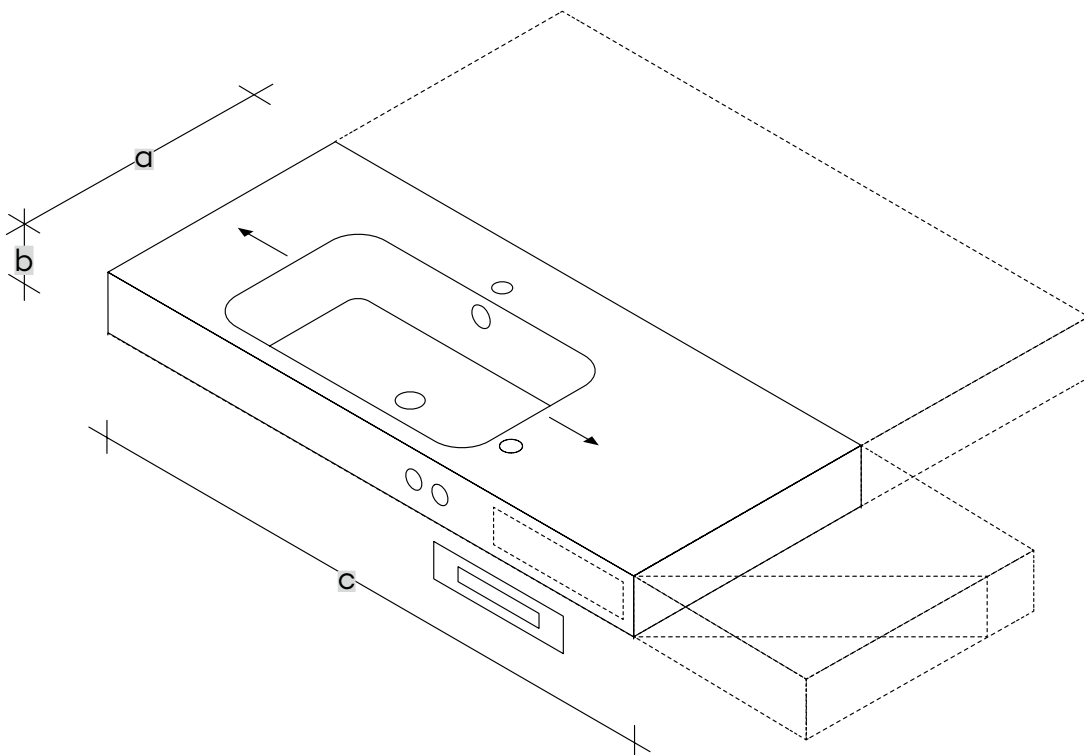

The design advantages of glazed steel make it easy to integrate additional functions. For example, paper and cosmetic tissue dispensers can be integrated into washstands or towel rails can be fitted.

Individual engravings and free choice of colours

Logos or lettering can be engraved for your individual branding. Our laser engravings are discreet and absolutely permanent in the top layer of glaze. We can realise individual RAL colour requests for quantities as low as ten basins. Our production department creates colour samples of glazed steel according to your specifications for selection and approval.

Special surfaces

In addition to our standard non-porous glazes, antibacterial or easy-care surfaces can also be selected for special requirements, for example in the healthcare sector. Silver ions in the glaze prevent the proliferation of microorganisms in the antibacterial surface. In the case of the easy-care surface, a nanotechnological coating ensures that water and dirt particles roll off effortlessly.

Notes on fittings and drilled holes

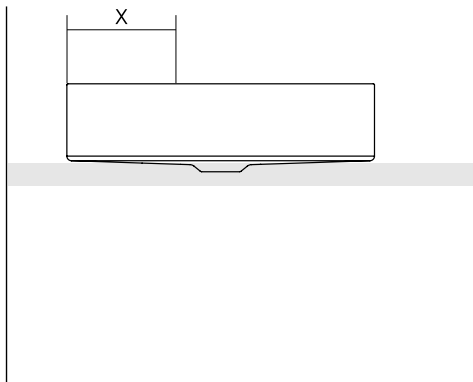

Faucets with a vertical outlet (90° angle of incidence) and with a built-in aerator ensure that the water hits the basin bowl in the best possible way. We assume that the spout of the free-standing or wall-mounted mixer tap is aligned with the valve hole in the basin and that the water hits the basin next to the valve cap. To minimise water splashes when the water hits the basin, we also recommend using taps with a flow limiter (max. 7.5 l/min.) or reducing the water pressure

to a maximum of 4.5 bar.

With regard to the installation height of a wall-mounted tap, the manufacturer's instructions and recommendations must be observed. The distance between the upper edge of the sink and the lower edge of the tap spout is usually between 140 and 200 mm.

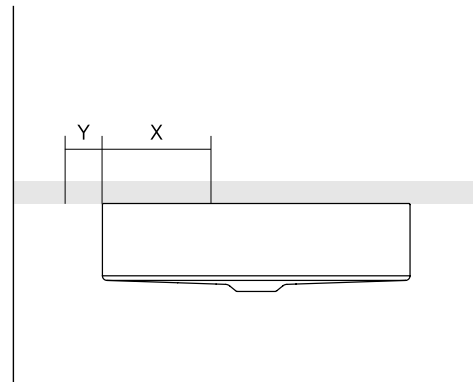

WALL FITTING

See fitting instructions per product

FREE-STANDING TAP

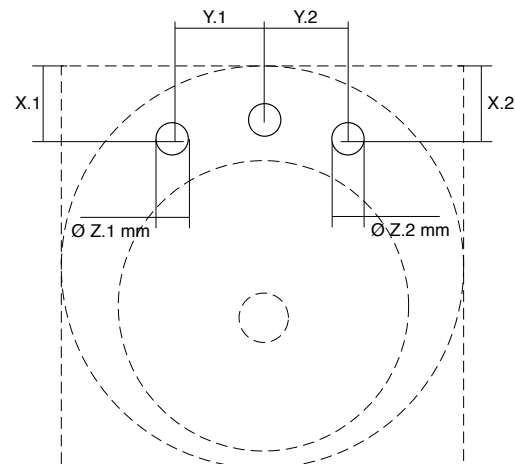

X: Impact area from the centre of the tap hole (Y)
See tap information per product

HOLE DRILLINGS

The standard diameter for tap holes is 36 mm in accordance with EN 31. The hole spacing is 100 mm.

Special designs such as tap hole, three-hole and lotion dispenser holes are available on request.

Alape Installation method

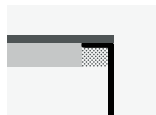

When it comes to systematic variety, Alape's extensive range is unrivalled. There are built-in, undermount and semi-built-in basins as well as countertop and dish basins. This allows Alape to set accents in bathroom design with small subtle differences.

UB UNDERMOUNT BASINS

Installation from below

Classic variant of the base unit, with its integrative character for a harmonious overall impression at the washplace. - No material-dependent special sets required for installation. Can be installed in all standard worktop materials and thicknesses.

Substructure in HPL-coated panels

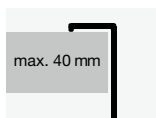

Filigrée special solution for installation under HPL (High Pressure Laminate) coated panels. - Sealing with a sealant to be selected by the installer. The pool edge is glued directly under the HPL and the cut-out is filled with casting resin from below.

Substructure of basins with 3 mm rim in HPL-coated panels

Variant of the substructure of basins with 3 mm edge directly under the HPL layer. - Sealing is carried out using a sealant to be selected by the installer. The pool edge is glued directly under the HPL and the cut-out is filled with casting resin from below.

EB BUILT-IN BASINS

Installation from above

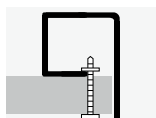

The most traditional and widely used installation solution. - Distinctive edge defines the basin above the plate. - Installation and sealing are quick and easy using a polystyrene ring in the edge of the pool, the adhesive supplied and, if necessary, additional mechanical retaining elements. - Can be installed in all modern panel materials up to a maximum thickness of 40 mm.

Built-in basins with 3 mm rim

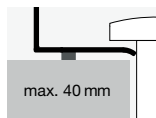

Delicate Alape special solution for basins with a 3 mm rim. - Series standard with a pool edge protruding 25 mm beyond the panel. - Sealing with a sealant to be selected by the installer, which should be colour-coordinated with the slab. - Can be installed in all mineral-bonded, 30 mm thick slab materials.

AB/SB SIT-ON- AND DISH BASINS

(Traditional) sit-on basins

Classic installation variant that gives the basin a dominant character at the washplace. - Classic mechanical installation using the fixing set supplied. - Can be installed in all standard worktop materials from 12 to 40 mm thick.

Sit-on basins with 3 mm edge

Delicate basin version of the sit-on basin with a rim just 3 mm thick. A spacer ring under the bowl emphasises the delicate shape and makes cleaning easier. - Uncomplicated fastening using the shaft valve supplied, which can be flexibly adapted to the thickness of the worktop. - Can be installed in all standard worktop materials from 12 to 40 mm thick.

Undermount basins – K-series

UB.K325

Undermount basin, round, l/w/h 284/284/110 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	2030 700 000	262,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

Impact area approx. 85 – 115 mm from rear edge of basin.
For parameters, see page 15.

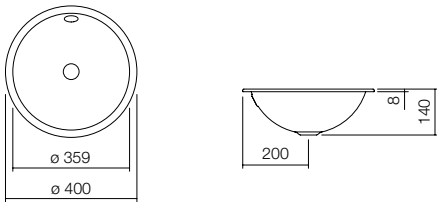

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

UB.K400

Undermount basin, round, l/w/h 359/359/140 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	2031 700 000	268,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

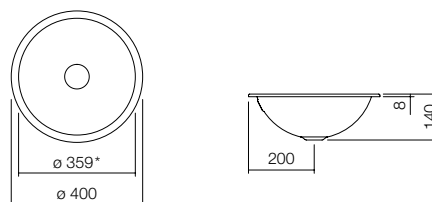

Impact area approx. 110 – 150 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

Undermount basins – K-series

UB.K400

Undermount basin, round, l/w/h 359/359/140 mm, glazed steel, metallic, without tap hole, without overflow, included fixing set, drain valve, valve cap, metallic dark iron glazed, Ø 74 mm

	Art. No.	Price
dark iron	2031 500 190	399,00

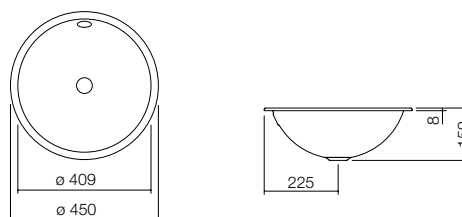

Fittings information

Impact area approx. 110 – 150 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, SI.2	8306 000 978	207,00
Bottle trap, SI.3	8312 000 978	202,00

UB.K450

Undermount basin, round, l/w/h 409/409/159 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	2032 700 000	284,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

Impact area approx. 110 – 170 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, SI.2	8306 000 978	207,00
Bottle trap, SI.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

Undermount basins – KE-series (Unisono)

UB.KE325

Undermount basin, round, l/w/h 319/319/104 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 63 mm

	Art. No.	Price	Version	Surcharge
white	3223 501 000	604,00	Glossy and matt colors	30%

Fittings information

Impact area approx. 102 – 137 mm from rear edge of basin.
For parameters, see page 15.

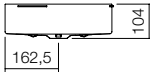

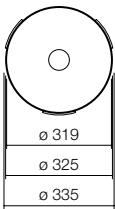

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

UB.KE325

Undermount basin, round, l/w/h 319/319/104 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 63 mm, optimised for installation directly under the laminate layer of a coated counter top

	Art. No.	Price	Version	Surcharge
white	3223 504 000	604,00	Glossy and matt colors	30%

Fittings information

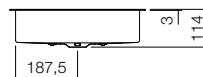

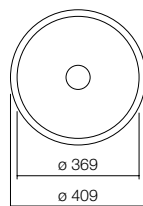

Impact area approx. 102 – 137 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

Undermount basins – KE-series (Unisono)

UB.KE375

Undermount basin, round, l/w/h 369/369/114 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 74 mm

	Art. No.	Price	Version	Surcharge
white	3224 501 000	663,00	Glossy and matt colors	30%

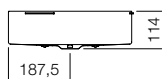

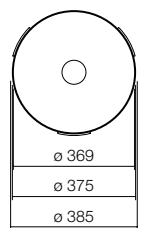

Fittings information

Impact area approx. 117 – 162 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

UB.KE375

Undermount basin, round, l/w/h 369/369/114 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 74 mm, optimised for installation directly under the laminate layer of a coated counter top

	Art. No.	Price	Version	Surcharge
white	3224 504 000	663,00	Glossy and matt colors	30%

Fittings information

Impact area approx. 117 – 162 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

Undermount basins – KE-series (Unisono)

UB.KE400

Undermount basin, round, l/w/h 394/394/114 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 74 mm

	Art. No.	Price	Version	Surcharge
white	3225 501 000	706,00	Glossy and matt colors	30%

Fittings information

Impact area approx. 122 – 167 mm from rear edge of basin.
For parameters, see page 15.

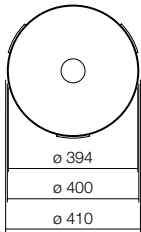

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

UB.KE400

Undermount basin, round, l/w/h 394/394/114 mm, glazed steel, without tap hole, without overflow, included fixing set, drain valve, valve cap, chrome-plated, Ø 74 mm, optimised for installation directly under the laminate layer of a coated counter top

	Art. No.	Price	Version	Surcharge
white	3225 504 000	706,00	Glossy and matt colors	30%

Fittings information

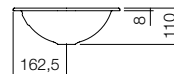

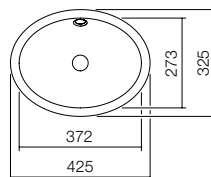

Impact area approx. 122 – 167 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

Undermount basins – O-series

UB.O425

Undermount basin, oval, l/w/h 372/273/110 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	2110 700 000	270,00	Without overflow	20%
			Glossy and matt colors	30%

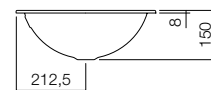

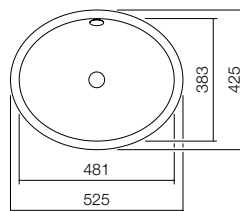

Fittings information

Impact area approx. 100 – 125 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

UB.O525

Undermount basin, oval, l/w/h 481/383/150 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	2111 700 000	300,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

Impact area approx. 120 – 165 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

Undermount basins – O-series

UB.O525

Undermount basin, oval, l/w/h 481/383/150 mm, glazed steel, metallic, without tap hole, without overflow, included fixing set, drain valve, valve cap, metallic dark iron glazed, Ø 74 mm

	Art. No.	Price
dark iron	2111 500 190	434,00

Fittings information
Impact area approx. 120 – 165 mm from rear edge of basin. For parameters, see page 15.

Recommended miscellaneous	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00

Undermount basins – ME-series (Metaphor)

UB.ME500

Undermount basin, rectangular, l/w/h 504/379/111 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	3226 701 000	985,00	Without overflow	20%
			Glossy and matt colors	30%

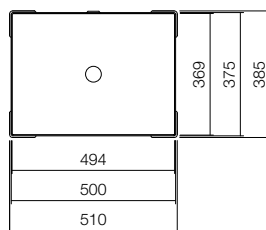

Fittings information

Impact area approx. 112 – 157 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

UB.ME500

Undermount basin, rectangular, l/w/h 494/369/111 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set, optimised for installation directly under the laminate layer of a coated counter top

	Art. No.	Price	Version	Surcharge
white	3226 704 000	985,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

Impact area approx. 112 – 157 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

Undermount basins – ME-series (Metaphor)

UB.ME750

Undermount basin, rectangular, l/w/h 754/379/111 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set

	Art. No.	Price	Version	Surcharge
white	3227 701 000	1.066,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

Impact area approx. 112 – 157 mm from rear edge of basin.
For parameters, see page 15.

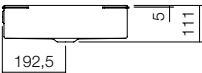

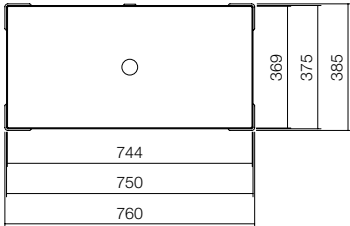

Recommended miscellaneous

	Art. No.	Price
Bottle trap, Sl.2	8306 000 978	207,00
Bottle trap, Sl.3	8312 000 978	202,00
Drain valve, VT.1	8302 000 978	97,00

UB.ME750

Undermount basin, rectangular, l/w/h 744/369/111 mm, glazed steel, without tap hole, with overflow, included fixing set, overflow set, optimised for installation directly under the laminate layer of a coated counter top

	Art. No.	Price	Version	Surcharge
white	3227 704 000	1.066,00	Without overflow	20%
			Glossy and matt colors	30%

Fittings information

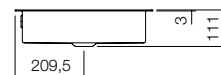

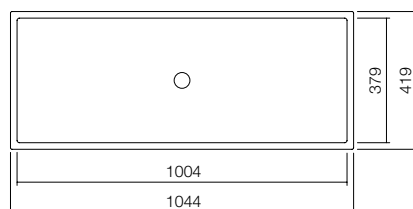

Impact area approx. 112 – 157 mm from rear edge of basin.
For parameters, see page 15.

Recommended miscellaneous

	Art. No.	Price

white glazed	8305 000 000	79,00

VT.4

Drain valve, round, l/w/h 74/74/120 mm, Ø 1 1/4", with open/closed function, this basin requires an overflow, valve cap, white glazed

	Art. No.	Price
white glazed	8319 000 000	165,00

VT.5

Drain valve, round, l/w/h 74/74/106 mm, Ø 1 1/4", this basin requires an overflow, valve cap

	Art. No.	Price
chrome-plated	8320 000 978	94,00
white glazed	8320 000 000	113,00

Accessories

UR.1

Overflow rosette, round, l/w/h 36/14/36 mm, suitable for Alape overflow set

	Art. No.	Price
matt black	8321 000 980	43.00
white	8321 000 331	43.00
chrome-plated	9510 951 078	12.00

OVERFLOW SET B.1

Overflow set, l/w/h 70/249,5/235mm, equipped for eccentric and drain valve, for basins and washstands with overflow, incl. overflow rosette chrome-plated

	Art. No.	Price
white	9500 280 000	19.00

OVERFLOW SET C

Overflow set, l/w/h 70/87/50 mm, equipped for drain and universal valve, for basins and washstands without overflow

	Art. No.	Price
white	9500 410 000	11.00

Spare parts

Below you will find spare parts for our extensive range of washbasins, washstands and washplaces. The selection ranges from valve caps in different shapes, sizes and colours to siphons and accessory bags for bucket sinks. You will find the article number of the required spare part in the assembly instructions for your product. If you miss a spare part, please send a message to service@alape.com. We will be happy to advise you.
